

REQUIRED READING · ACKNOWLEDGE BEFORE STARTING

Information Security Training

Working safely as an Alignerr labeler

Welcome! Before you start work on this project, please take a few minutes to read this short guide. It covers the rules and habits that keep **you**, your **account**, and our **customer's data** safe. At the end you will be asked to acknowledge that you understand these expectations.

PART 1

Working Location

Where you can work from, and the strict rules around your Primary Country.

PART 2

Security Awareness

Spotting phishing, what to do if you see it, and how to harden your account.

PART 3

Acceptable Use

What you must do — and never do — with Alignerr information.

1 Working Location Policy

Verify once. Stay there.

Some Alignerr projects are only available in certain countries. If you take on one of these projects, you may be asked to verify your identity and location with a **government-issued ID**. The location you verify becomes your **Primary Country**, and you must work from there for the duration of the project.

Moving? Email support@alignerr.com **before** you work from a new country. You will need a valid government ID from that location to update your Primary Country.

ZERO TOLERANCE

This policy is taken very seriously

Our customers monitor working-location compliance closely, and we are required to enforce it. Violating this policy — including using a **VPN** to mask where you are working from — has real consequences:

STEP 1

Immediate removal from the project you are working on.

STEP 2

A pause on your account while we investigate.

STEP 3

Possible permanent ban from the Alignerr platform.

Never use a VPN to make it look like you are working from a different country. This is the most common violation we see — and we **do** detect it.

2 Security Awareness — Phishing

Phishing is when a criminal pretends to be someone you trust (Alignerr, Labelbox, your manager) to trick you into clicking a bad link, sharing a password, or sending money. As an Alignerr who uses a personal email, you are an attractive target — please be careful.

MOST COMMON Mass-Scale

A wide net cast at thousands of people. Not very personalized.

HIGHLY TARGETED Spear Phishing

Aimed at one person, using personal details to look real.

BIG TARGETS Whaling

Spear phishing aimed at executives like a CEO or CFO.

What a phishing email looks like

Below is a fake example. The red numbers point to common red flags.

Inbox — Suspicious message

From: **Alignerr Support** <support@alinger-team.co> ❶

To: undisclosed-recipients

Date: Today, 03:14 AM

URGENT: Action Required — Your Account Will Be Suspended in 24 Hours ❷

Dear User,

We have detected unusual activity on your account. To avoid suspension you must verify your identity **immediatly** by clicking the secure link below. Failure to act within 24 hours will result in permanent loss of access and unpaid earnings. ❸

<https://bit.ly/3xK9vAlgnr-verify> ❹

Please also forward this email to other Alignerrs so they don't lose access. ❺

— Alignerr Security Team

❶ **Look-alike domain.** "alinger-team.co" is not "alignerr.com". Always check the spelling.

❸ **Spelling mistakes.** "account," "immediatly" — real companies proofread.

❺ **Forward request.** Phishers want to spread the attack to your coworkers.

❷ **Urgency & threats.** "Action required," "24 hours," "suspension" — designed to scare you.

❹ **Shortened / disguised link.** bit.ly hides the real destination. Hover before you click.

Other red flags to watch for

❗ An unexpected request for a wire transfer or payment.

❗ Tone or wording that doesn't sound like Alignerr.

❗ Unfamiliar or oddly named file attachments.

❗ A message claiming to be from a "superior" you've never spoken to.

If you suspect a phishing email

1

Don't click

No links. No attachments. No replies.

2

Report it

Forward to
support@alignerr.com and tell
your supervisor.

3

Delete it

Remove it after reporting. Don't
forward to coworkers.

4

Check your account

If you clicked anything, change
your password right away.

Pro tip — Turn on Multi-Factor Authentication (MFA)

MFA is the single best thing you can do to protect your personal email — even if someone steals your password, they can't get in. Set it up now: [Gmail MFA guide](#) · [Yahoo MFA guide](#)

3 Acceptable Use of Alignerr Information

You are legally required to keep Alignerr business data **strictly confidential**. The rules below apply any time you are working in the Alignerr environment.

⊗ You will never:

- Screenshot, photograph, or record anything in the Alignerr data environment beyond what your work requires.
- Send Alignerr information to anyone unauthorized, by any channel — email, text, chat, or community posts.
- Share or reveal your password, or let anyone else use your account.
- Use another labeler's password.
- Use a VPN to hide your location.
- Harass others over any communication channel.

✓ You must:

- Promptly report any theft, loss, or unauthorized sharing of Alignerr data to your supervisor or **support@alignerr.com**.
- Ask your supervisor or manager whenever you have questions about your work or your security responsibilities.
- Use good judgment about information security and how you treat fellow Alignerrs.
- Keep your account credentials private and your device secure.

4 Acknowledgment

By acknowledging and continuing, you confirm that you understand and agree to all of the following:

- I will only work from my verified **Primary Country** and will never use a VPN to mask my location. I understand that violations may result in **permanent removal** from the platform.
- I will email **support@alignerr.com** before working from a new country.
- I will watch for phishing — unfamiliar senders, look-alike domains, urgent language, suspicious links — and I will not click, reply, or share information.
- If I suspect phishing, I will report it to **support@alignerr.com** and tell my supervisor.
- I will keep Alignerr information **strictly confidential** and will never screenshot, share, or remove it from the data environment.
- I will protect my account: never share my password, never use someone else's, and turn on MFA on my personal email.

By clicking "OK" / "I Acknowledge" below, I agree that I have **fully read and understood** the points above and the policies described in this document, and I agree to follow them while working as an Alignerr.
